Slatercom-WCD submitted pricing and information on a Solar Street Lights U.S.A. brand system. However, since this information was received after the response deadline had passed, this system could not be considered for evaluation or award, but could be considered for comparison on future RFQ opportunities if other needs are identified for similar types of systems.

Notification of the online posting of the RFQ opportunity was also sent to Carmanah Technologies Corporation and Saint Louis Lighting Group. Carmanah Technologies responded through their distributor, Brown Traffic Products. No response was received from Saint Louis Lighting Group.
